

## Ship Security Reporting System

A subsidiary of Pole Star Space Applications Ltd.

### PRIVACY

Pole Star ("the Company"), the owners and operators of SSRS, respects your right to privacy. The following guidelines dictate the manner in which the Company protects the privacy of its users and by accessing, browsing or using this Web site, you acknowledge that you have read, understand and agree with the provisions contained herein.

#### **Consumer Privacy**

The Company respects the confidential nature of personal and commercial information such as your name, e-mail and postal addresses, and telephone numbers. Because we must collect certain information from consumers to provide our assorted services, we have a fiduciary responsibility to protect that information from misuse. Any information provided by consumers is stored in a secure location on our servers, accessible only by the Company staff, and is used only for the specific purpose requiring the disclosure. All consumers can search our database or view other information posted on our Web site without disclosing any personal information.

Unless consumers have specifically requested that we do so, we will never release their personal information to third parties for marketing purposes. We will, however, disclose certain information to third parties when it is necessary for the processing of the Company's service, or if such release is required by law.

#### **Web Site Administration**

When you visit the Company Web site (SSRS.org), some information may be collected automatically by the software that operates our Web site (i.e. the site from which you linked, your Internet Service Provider, the time and date of your visit). Our servers do not track, collect, or distribute personal information about visitors to our Web site. This information may be used by our technical engineers to compile aggregate statistics about the total number of daily visitors to our site, the pages most frequently visited, and how long people stay at each page. None of the information that we report allows for the personal identification of individuals.
